

# Met WPS

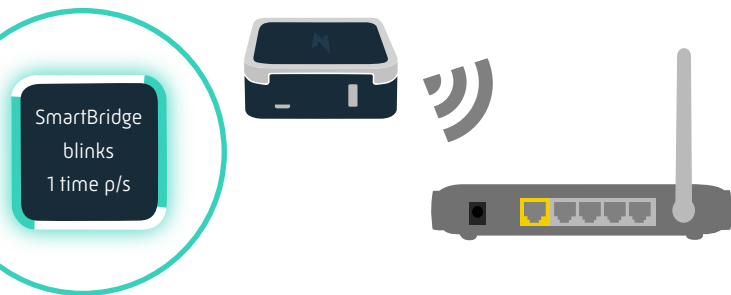

Turn on WPS on your router.  
*It will stay on for 2 min.*

Connect the SmartBridge to the smart meter.

The SmartBridge will connect to the Internet.

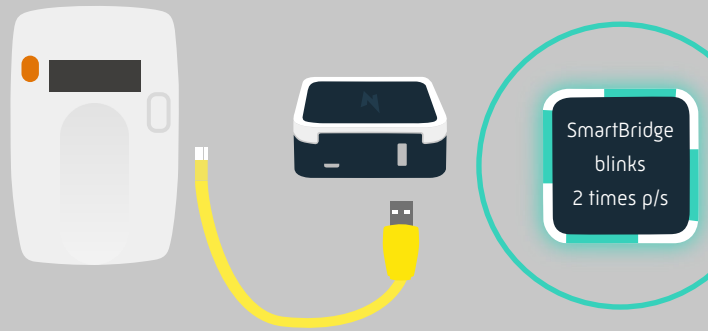

When the SmartBridge light stops blinking, it's ready for use.

# Zonder WPS

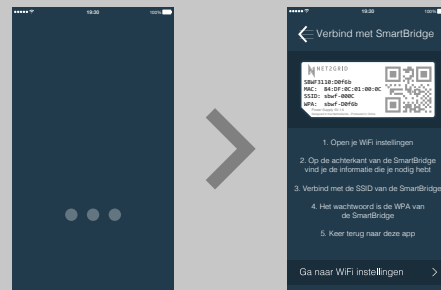

1

Connect the SmartBridge to the smart meter.

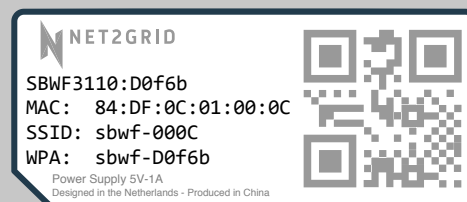

2

Open the app and go to 'Connect to SmartBridge'.

3

Connect to the WiFi network (SSID) of the SmartBridge and fill in the WPA key as a password

4

When the SmartBridge light stops blinking, it's ready for use.
